

The **KeyChange** product is used to update key pieces of data in your SL database. It can be used to change or merge things like vendor IDs or project IDs. There are two versions of this software - Standard and Advanced - so you can select the version that best meets your needs.

		KeyChange Advanced	KeyChange Standard	
	Software Price	\$2,495	\$1,495	
	Service Plan	\$499/year maintenance	\$299/year maintenance
